

Data Dictionary for Gold Layer

Overview:

The Gold Layer is the business level data representation, structured to support analytical and reporting use cases. It consists of dimension tables and fact tables for specific business metrics.

1. dim locations

This table stores geographic reference data, linking location keys to hierarchical region details.

Column Name	Data Type	Description
zip	NVARCHAR	Primary key postal code of the location
district	NVARCHAR	District or neighborhood within the city
city	NVARCHAR	City name
region	NVARCHAR	Geographic region
country state	NVARCHAR	Country specific state or subdivision
country	NVARCHAR	Country name

2. dim manufacturers

This table provides descriptive information about product manufacturers, including their names and logos.

Column Name	Data Type	Description
manufacturer_id	INTEGER	Primary key unique identifier for each manufacturer
manufacturer_name	NVARCHAR	Full name of the manufacturer
manufacturer_logo	NVARCHAR	File path URL or binary data for the manufacturer's logo

3. dim products

This table contains product master data, associating products with manufacturers and defining their pricing and category attributes.

Column Name	Data Type	Description
product_id	INTEGER	Primary key unique identifier for each product

manufacturer_id	INTEGER	Foreign key referencing dim_manufacturers.manufacturer_id
product_name	NVARCHAR	Name or title of the product
subcategory	NVARCHAR	Product subcategory
category	NVARCHAR	High level product category
unit_price	DECIMAL	Price per single unit of the product
currency	NVARCHAR	Currency code USD

4. fact sales

This table records transactional sales facts, capturing quantities, revenue, and foreign keys to related dimension tables.

Column Name	Data Type	Description
product_id	INTEGER	Foreign key referencing dim_products.product_id
order_date	DATE	Sales order date
zip	NVARCHAR	Foreign key referencing dim_locations.zip
quantity	INTEGER	Number of units sold in the transaction
revenue	DECIMAL	Total revenue generated from the transaction
country	NVARCHAR	Country
